1,900+ babies expected
(30% increase)
you make a difference!

Dear Honorable Knights,

These three little miracles were born, loved and nurtured because of you!

Over the last year, 69% of the women who walked through our doors at Women's Care Center were thinking about abortion.

One of them was Jessica.

But with your help, Women's Care Center provides love, hope and real help before a decision and after! One woman at a time.

Jessica says, "I was so nervous - and I didn't want to be pregnant. I thought about abortion. But first, I wanted to know how far along I was."

A free ultrasound brought Jessica to Women's Care Center. And that first ultrasound was possible because of you!

Jessica says, "Here I started to feel confident enough to become a parent. At my first ultrasound, we saw two babies. I thought I was having twins and I am a twin! But then you found a third baby! It was really shocking. We kept wondering, how will we manage three babies?"

"My counselor helped so much. I felt like she really understood me. We went to classes throughout the pregnancy, saved so many diapers and got cribs from the Crib Club. Today, I graduated from high school, I have three babies, and I keep aiming for my goals."

You helped Jessica gain the confidence to choose life for her triplets Alina, Alaia, and Ellie.

And with 9 in 10 women walking through the door choosing life, just think of the impact you are making!

89% of every dollar you donate goes directly to the moms and babies by way of the services we offer and tangible items, **not overhead.**

And with thousands of babies born, loved and cared for by our local moms last year - there is no greater return on your philanthropic giving.

A gift of \$83 gives a lifesaving ultrasound to one young mom like Jessica.

It costs \$398 to support one woman... from cradle to kindergarten... if you can, please help one woman for \$398 or three for \$1,194!

And if you can, please help 5, 10, even 25 or 50 women... you will make an indelible impact on each woman and her family.

The need is great, and your support makes it all possible.

You truly do make this mission possible!

With so much gratitude,

Madeline Pesavento
Senior Outreach Director

P.S. Jessica says, "Motherhood was hard at first, but now it is fun! The girls are so sweet. I cannot imagine not being their mom. I was supposed to do this!"

You make miracles like this happen... and build families!
